📄 SUMMARY

Specializes in creating scalable, responsive web applications using React, TypeScript, and modern frontend architectures. Brings expertise in collaboration, reusable component systems, and optimizing performance for seamless user experiences across platforms. Skilled in translating technical requirements into efficient solutions while contributing to team workflows and knowledge-sharing initiatives.

🧠 TECHNICAL SKILLS

Frontend Technologies: React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Gatsby

Backend & Tools: Node.js, Express.js, GraphQL, REST APIs

Product & Marketing:: Digital Marketing, Keyword Research, Google Search Console

State Management & UI Engineering:: Zustand, Storybook, Responsive Design, Component Architecture, API Integration

Performance & Optimization:: Frontend Performance Optimization, SEO, On-Page Optimization, Accessibility Best Practices

Tools & Collaboration:: Git, GitHub, Jira, ClickUp, Agile/Scrum, Project Coordination

🛠 EXPERIENCE

FRONTEND ENGINEER (CONTRACT), *Software Business Solution Consulting*
05/2025 – Present | Lagos State

Project : Alaje, ValueJet, Retail Management Platforms

- Led frontend development for scalable business and customer-facing applications using React, TypeScript, and modern frontend architectures.
- Collaborated with Product, Design, and Backend teams to define technical requirements, API contracts, and implementation strategies for complex features.
- Architected and maintained reusable component systems, improving development efficiency, UI consistency, and scalability across projects.
- Delivered responsive, high-performance web applications optimized for usability across desktop and mobile platforms.
- Integrated third-party services, payment systems, and backend APIs while ensuring reliability, maintainability, and seamless user experience.
- Contributed to engineering decisions, sprint planning, code reviews, and technical problem-solving within agile development teams.
- Improved application performance and frontend maintainability through code optimization, modular architecture, and state management best practices.
- Built and maintained administrative dashboards, onboarding flows, booking systems, transaction workflows, and internal management tools.
- Worked closely with stakeholders to translate business goals into production-ready solutions with strong attention to user experience and product quality.
- Mentored junior developers and contributed to collaborative engineering practices, documentation, and knowledge sharing within the team.

FRONTEND ENGINEER (CONTRACT), *Supretec.com*
02/2025 – 12/2026 | Lagos State

- **Project:** Ajoti
- Led frontend development and project coordination for Ajoti, overseeing feature delivery from planning to deployment.
- Managed cross-functional collaboration between Design, Engineering, and Product stakeholders to ensure timely execution of project milestones.
- Built scalable and responsive user interfaces using React, TypeScript, and modern frontend development practices.
- Coordinated sprint planning, task delegation, progress tracking, and engineering discussions to maintain delivery efficiency.
- Worked closely with backend engineers to define API structures, system workflows, and integration requirements.
- Translated business and operational requirements into user-focused product experiences and technical implementation plans.
- Oversaw project timelines, identified blockers, and facilitated communication between technical and non-technical team members.
- Implemented reusable frontend components and optimized application performance for better scalability and maintainability.
- Contributed to product strategy, feature prioritization, and overall user experience improvements.
- Utilized tools such as Jira, GitHub Projects, ClickUp, and collaborative workflows to manage development processes effectively.

FRONTEND ENGINEER, Esemie

02/2022 – 02/2025 | Lagos State

- Responsible for taking design mockups and turning them into functional web pages.
- Used Bitbucket for website application Continuous Integration and Deployment for optimal software performance.
- Led a team of developers(interns) on several React Typescript logic, ensuring timely delivery of high-quality code.
- Before merging code to staging, numerous tests were written to find defects and other technical concerns, reducing code smells and bugs by over 90%.

FRONTEND ENGINEER (CONTRACT), Lextech Ecosystem Limited

01/2023 – 03/2023 | Lagos State

- Responsible for taking design mockups and turning them into functional web pages using React TypeScript.
- Testing and debugging to identify and fix bugs that occur during testing.
- Built an Amazing Project for lawyers in court houses.

FULL STACK ENGINEER, Decagon

09/2022 – 12/2022 | Lagos State

- Built reliable software and online applications with over 92% client approval rate using Node.js and React.js that satisfy current market standards.
- Used Github for website application Continuous Integration and Deployment for optimal software performance.
- Software API documentation using Swagger.
- Responsible for refactoring code bases to meet client demands and ensure more efficient space and time complexity.

** EDUCATION**

University of Utah, Master of Business Creation

08/2025 – 08/2026 | Salt Lake City, UT, US

LADOKE AKINTOLA UNIVERSITY OF TECHNOLOGY,

Bachelor of Technology (B.Tech) Applied Geophysics

Ogbomoso, Oyo State
